Certifications: Programming with Java (Amazon), Introduction to Software Development (Amazon), Foundations of Modern Web Development (Kappa Theta Pi)

EXPERIENCE

Greater Orangeburg Funeral Home – Orangeburg, S.C.

February 2021 - Present

Multimedia & Web Administrator

- Manage all online platforms, utilizing **Canva** and **Adobe Photoshop** to design obituaries and event posters for social media, and **Tribute Technology's** CFS software to update the company website regularly
- Provide on-site tech support for staff and family members during services while operating livestream and troubleshooting audiovisual equipment, including microphones, soundboards, monitors, and projectors

Fusion Dance Academy- Orangeburg, S.C.

June 2025 – Aug 2025

Technology Coordinator

- Partnered with a **WiX** development team to optimize the academy's website, implementing an updated calendar, booking system, and payment gateway integration
- Employed **DanceStudioPro** software to revamp the parent portal, enabling parent access to files, videos, and online shopping
- Developed attendance tracking and financial reporting systems with full feature documentation, improving data accuracy by **10%** and reducing manual workload by streamlining daily processes

TECHNICAL PROJECTS

Kappa Theta Pi (KTP) Website Development

September 2025 – November 2025

- Collaborated in a team of four to build a frontend and backend for the chapter website, implementing Jira software for project management
- Utilized **React**, **Node.js**, and **Git** to create a responsive user interface and streamline the KTP events calendar and rush application, leveraging **Tailwind CSS** for styling and **GitHub** for version control
- Developed a website backend with **Vercel** to process over **100+** applications and manage portal login credentials for **30** new members

Automation & Virtualization Project

May 2024 – Aug 2024

- Designed and executed automation workflows ("robots") in **UiPath** to extract information from **500+** data sets and generate system performance reports
- Employed **Microsoft Azure** services and **Oracle's VirtualBox** to install, configure, and manage multiple virtual machines that ran the automation scripts in parallel

ACTIVITIES

ColorStack – Communications Chair

December 2025 – Present

- Spend 2hrs/week planning technical, social, and career development events and documenting them for social media
- Handle internal and external communications with other organizations, the national chapter, and the USC community

Women in Computing – Director of Member Engagement

August 2025 – Present

- Work with executive board members and other club leaders to host career development events biweekly
- Boost member retention by **15%** through increased interaction- implementing member feedback, posting career tips, advice, and updates regularly, and organizing productive study sessions to assist with members' coursework
