- Applied Jira and Git as a workflow in order to allow efficient and effective work between all team members
- Worked with a tech stack involving Next.JS, React, Tailwind CSS, ShadCN, and Sanity CMS

Research Experience

Publication to SCJAS, 3rd Place Written Paper - Esparza, Alex, "ISP or Personal Wireless Router in a Home Environment." South Carolina Junior Academy of Science, 2024. 2024

- Accumulated data from a population within one neighborhood in near Chapin, SC
- Gathered a total of 50+ answers to the survey I created that questioned individuals about their wireless routers and how much they know about wireless networking
- Compared that data through statistical analysis to determine whether the average household used an ISP or Personal wireless router
- Aimed to show the importance of wireless networking and educate non-technical people the importance of basic wireless networking practices
