

BRANDON ENLUND

Columbia, SC | 803-522-6943 | brandonenlund@gmail.com | linkedin.com/in/brenlund

EDUCATION

University of South Carolina (USC), Honors College , Columbia, SC	EXPECTED MAY 2029
<i>Major in Integrated Info. Technology & Computer Info. Systems, Minor in Business Admin.</i>	<u>GPA: 4.000</u>
University of South Carolina (USC-A) , Aiken, SC	AUG 2023 - MAY 2025
<i>Full-Time Dual Enrollment with Computer Science Concentration</i>	<u>GPA: 3.936</u>
Led research cohort and completed grad-level coursework in advanced computer networking while in high school.	

EXPERIENCE

Scientific Research Corporation , Augusta, GA	MAY 2025 - AUG 2025
<i>Network Architect Intern for National Cyber Range Complex</i>	
Spearheaded the deployment, configuration, and security administration of a complex, enterprise-scale network, managing 60+ virtual machines (VMs) on diverse operating systems. Utilized VMware ESXi to strategically optimize resource allocation and enhance system efficiency over a 10-week internship.	
The UPS Store , Aiken, SC	MAY 2024 - MAR 2025
<i>Sales Associate</i>	
Delivered efficient customer service through intense problem-solving and effective communication in a busy, high-stress retail environment, assisting over 100 customers per shift with consistent high customer satisfaction ratings.	

PROJECTS

PolePadAI
- Engineered a serverless AI pipeline leveraging YOLO and Google Vision OCR for automatic utility pole asset tag detection and extraction, and integrated a separate ML model to objectively quantify vegetation encroachment, replacing manual field data entry and subjective estimates. - Architected and deployed a scalable serverless backend on AWS utilizing S3, Lambda, and DynamoDB (with GSI) and secured with least-privilege IAM policies, culminating in a successful technical defense of the architecture to the CTO of Dominion Energy.

ORGANIZATIONS

Kappa Theta Pi , USC	JAN 2026 - PRESENT
- Completed intensive full-stack development training and participated in various technical workshops and hackathons during the competitive enrollment process. - Developed a full-stack website for the non-profit organization Patriot Housing, specifically coding the backend for a self-sustaining automated newsletter system using Brevo and Sanity CMS.	
Cyber Security Club , USC	NOV 2025 - PRESENT
<i>Vice-President</i>	
Developed and presented core cybersecurity concepts to new members while coordinating club meetings and educational events that contributed to a 2nd place trophy in the Palmetto Cyber Defense Competition.	
Cyber Patriots , USC-A	AUG 2022 - MAY 2025
<i>Co-Founder</i>	
Directed the Networking division; including configuration, troubleshooting, and optimization of Cisco Networks, while supporting overall team strategy and technical execution that secured first place in South Carolina and placed strongly in National's highest division.	

TECHNICAL SKILLS

Languages: C++, Java, Python, TypeScript, SQL.

Skills: Computer Networking, Cloud Architecting, Cloud & Endpoint Security, Pen-testing, Full-Stack Development.
