EDUCATION

University of South Carolina – Columbia, S.C.

May 2028

- *Bachelor of Science in Computer Science*
- Cumulative GPA: 3.95
- Honors: Capstone Scholar, Deans Honor List
- Merit Scholarships: Superlative Merit Scholarship \$96,000

SKILLS

- Languages: Java, C++, JavaScript, Python, HTML, CSS, TypeScript
- Frameworks/Libraries: Next.js, React.js, Tailwind CSS, JavaFX
- Tools & Technologies: Git/GitHub, Linux, Windows, VS Code, Vercel, Neon (PostgreSQL)

WORK EXPERIENCE

Resident Assistant – USC, Columbia, S.C

August 2025 – Present

- Support and mentor a community of 32 residents, fostering an inclusive and safe living environment.
- Organize educational and social programming to strengthen student engagement.
- Enforce university policies and mediate conflicts to maintain community standards.

Information Systems Engineer I – PSCN, Oakmont, P.A.

May 2025 – August 2025

- Streamlined deployment of 200+ laptops and desktops by imaging devices to Windows 11, reducing setup time for new systems.
- Migrated staff from Office 2019 to Microsoft 365, ensuring smooth adoption and minimizing downtime
- Decommissioned legacy hardware following HIPAA security protocols for 200+ devices, removing and cataloging sensitive components (hard drives, RAM).

Projects

SC Economics – Full-Stack Web App

October 2025 – November 2025

[GitHub](#)

- Designed and implemented an inventory management platform with CRUD operations for items using Next.js App Router and TypeScript.
- Built RESTful API routes supporting real-time item creation, updates, and status changes.
- Deployed via Vercel with connected Neon PostgreSQL database for persistent data management

Escape Room Game – JavaFX, Object-Oriented Design

September 2025 – November 2025

[GitHub](#)

- Designed and implemented an interactive escape room game using Java and JavaFX
- Built a modular system using ten interconnected classes following object-oriented principles
- Developed data persistence using JSON files to manage player profiles and progress
- Created a clean, intuitive user interface in FXML, integrating responsive layouts

EXTRACURRICULAR ACTIVITIES

Association of Computing Machinery– Club Member

September 2024 – Present

- Participated in technical workshops and coding events focused on professional development.
- Placed 3rd in the Fall 2024 Code-A-Thon competition.
- Active LeetCode Club member, solving algorithmic problems weekly.

Ultimate Frisbee – Club Member

August 2024 – Present

- Competed in regional tournaments; placed 4th in Regionals (2024).
- Awarded Rookie of the Year for outstanding performance and teamwork.
