EDUCATION

University of South Carolina

Columbia, SC

Bachelor of Science in Physics, Minor in Astronomy and Astrophysics

August 2024 – May 2028

- GPA: 3.51/4.0
- **Relevant Coursework:** Calculus I & II, Classical Physics I & II, Algorithmic Design (Java), Statistical Methods, and Scientific Computing with Python

EXPERIENCE

Undergraduate Research Assistant

March 2026 – Present

University of South Carolina

Columbia, SC

- Investigated the effects of magnetic fields on star formation within molecular gas clusters under a Project Team.
- Assisted in Developing a Python pipeline to analyze polarized light data utilizing Astropy, Matplotlib, SymPy, and NumPy.

Website Developer

February 2026 – Present

Kappa Theta Pi – SC Economics Volunteer Portal

Columbia, SC

- Assisted in developing a full-stack volunteer management web application for SC Economics, a local non-profit, enabling streamlined sign-up and event coordination for volunteers.
- Helped Design and develop the Frontend application using primarily Typescript.
- Collaborated with a team of developers using Git and Jira to deliver features in TypeScript and React within an agile workflow.

Programmer

August 2021 – May 2023

Robotics Club

Beaufort, SC

- Competed in the FIRST Tech Challenge regional competitions in South Carolina.
- Engineered and programmed autonomous and manual movement systems for competition robots.
- Gained hands-on experience with soldering and industrial-grade fabrication equipment during build seasons.

Cart Attendant

September 2025 – Present

Columbia Country Club

Columbia, SC

- Cultivated strong interpersonal skills through daily collaboration with a team of staff in a fast-paced service environment.
- Delivered consistent, high-quality customer service to club members and guests, maintaining professional standards.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, R

Frameworks: React, Next.js, Node.js

Developer Tools: Git, GitHub, Docker, VS Code, PyCharm, IntelliJ, WebStorm, Eclipse

Libraries: NumPy, Matplotlib, Astropy, Prisma
