EDUCATION

University of South Carolina

Expected May 2028

Bachelor of Science in Computer Science (GPA 3.9/4.0)

Columbia, SC

- Relevant Coursework: Software Engineering, Advanced Programming Techniques (C++), Unix/Linux Fundamentals, Algorithmic Design II (Java)

PROJECTS

Technical Interview Prep Platform | VSCode, GitHub, SceneBuilder, Figma

- Designed UML diagrams modeling users, questions, solutions, and voting interactions
- Defined system architecture for browsing questions, commenting, and voting features
- Collaborating with a team to implement backend services and user interface components

EXPERIENCE

Taverna Rustic Italian Wilmington

June 2023-Current

Hostess/Foodrunner

Wilmington, De

- Resolved customer issues efficiently during peak dining periods to ensure satisfaction.
- Addressed multiple customer issues daily to enhance overall dining experience
- Managed reservations and optimized table assignments to maximize restaurant capacity

Sidney Kimmel Comprehensive Cancer Center @ TJU

May 2025-August 2025

Cancer Research Intern

Philadelphia, PA

- Conducted independent research under Dr. Raj Vadigepalli on AI-based image analysis of prostate tumor morphology from 86 different samples, contributing to advancements in diagnostic techniques.
- Utilized Visiopharm deep learning software to segment and analyze histological features (gland, lumen, nuclei) from 8 H&E-stained tissue microarray (TMA) samples, around 300 cores, enhancing understanding of tumor characteristics.
- Performed data cleaning, visualization, and statistical testing in RStudio, identifying significant morphological and racial differences across gleason grades, informing potential disparities in prostate cancer outcomes.

Archmere Academy

September 2023-April 2024

Student Researcher

Claymont, Delaware

- Developed and presented two research posters integrating cancer biology and data analysis to deepen understanding of research methodologies
- Analyzed research findings with statistical software, ensuring accuracy and deriving meaningful insights to support ongoing research.
- Shadowed a lead physician at the Children's Hospital of Philadelphia (CHOP) to observe clinical oncology practice.

TECHNICAL SKILLS

Languages: HTML, Java, C++, Unix/Linux,

Technologies: Github, RStudio, R, VSCode, WebStorm

VOLUNTEER EXPERIENCE

-
-

Chi United Wesleyan Church, Boothwyn, PA, Weekly Kids Ministry Helper, 01/01/20, Assist in lessons, crafts, hand out snacks, and engage kids in games, Required strong multitasking and communication skills

Chi United Wesleyan Church, Boothwyn, PA, Summer VBS Aid Helper, 01/01/20, Guided children through lessons, crafts, games, and group discussions, Helped set up and clean up classrooms, craft stations, and activity areas

LEADERSHIP EXPERIENCE

-
-

Archmere Academy, Claymont, DE, Varsity Track and Field Team Captain, 01/01/24, 12/31/24, Led and motivated a team of 30 athletes, Led workouts and hurdle practices

Archmere Academy, Claymont, DE, Freshman Field Hockey Team, 01/01/20, 12/31/22, I was a team player, filling in any position that was needed, Brought a positive attitude to every practice, motivating everyone
